NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

HOME

NDAXX CONSTRUCTION CO. Ltd., is a Kenyan company which has been active, in all construction works and material supply services across the country, especially in major cities and their environs.

We are currently one of the leading construction contractor, manufacturer, supplier and service provider in the following sectors:

- ✓ Housing & Residential Areas.
- ✓ Buildings and Sewer works.
- ✓ Motorways, Highways & Bridges.
- ✓ Parking & Service Areas.
- ✓ Manufacture & Suppliers of precast concrete products.
- ✓ Design & Supervision, among other services included in our profile.

OUR MARKET

The housing industry has proceeded at a red-hot pace for several years running. From the Economic survey (Kenya National Bureau of Statistics), the building and construction sector has shown tremendous growth since 2010. The Government expenditure on roads has also been on an upward growth with the Government budgetary allocations increasing annually.

The 2030 vision for housing and urbanization is to increase the annual production of housing units and grow the Metropolitan regions border towns and all other municipal councils.

NATURE OF BUSINESS

We have acquired broad experience, from the years of working for our clients and from the highly trained personnel, in the fields shown below:

1. Civil Infrastructure

- ✓ Municipal Roads
- ✓ Highways and rural roads
- ✓ Unclassified roads and access roads
- ✓ Bridges and other drainage structures
- ✓ Soil erosion protection works
- ✓ Asset management

2. Building Construction

- ✓ Housing and residential development
- ✓ Data centre and telecommunication buildings
- ✓ Commercial development
- ✓ Healthcare
- ✓ Industrial
- ✓ Design and build

3. Site Works

- ✓ Driveways
- ✓ Parking and service areas
- ✓ Hard and soft landscaping
- ✓ Drainage
- ✓ Trenching
- ✓ Earthworks

4. Water and waste water treatment

- ✓ Dams and water pans
- ✓ Water supply and sanitation

5. Supply of construction materials

- ✓ Murram
- ✓ Ballast
- ✓ River Sand
- ✓ Red Soil
- ✓ Bricks
- ✓ Cement
- ✓ Iron

6. Transportation services

- ✓ Haulage
- ✓ Double cabin pick-up truck hiring
- ✓ Tipper/ dump trucks.

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

WHAT WE OFFER

The specific experience and capabilities we have acquired have been instrumental in the achievement of the desired goals and objectives of the client.

From experience, we offer the best in New Age Engineering expert services in:

PRE-CONSTRUCTION SERVICES

We work with the client and the design team in the early phase of drawings, to provide value engineering and suggestions for siting, constructability, budgeting, and scheduling. Within our Preconstruction services, we act as a value-added member of the design team, enhancing the design segment of the job by providing accurate pricing information and marrying the budget to the actual design.

By incorporating items such as sustainability and maintenance costs into our design review, our suggestions often save the owner money well into the future. Our pre-construction team works to reduce the overall project cost by saving time, labour and expenses. The result is a construction project designed to the owner's specifications, within the budget and timeline.

CONSTRUCTION MANAGEMENT

Our Construction Management (CM) team is closely involved in the planning and design phase and typically joins the project at the same time as the architect/engineer, when the project allows.

During the construction phase, we provide input on constructability, budget, and schedule, which reduces costs. Our full-time supervision team is on-site, monitoring work to assure compliance with specifications, budget, and schedule.

Our CM team also acts as a liaison to the owner providing the on-going status of the project, producing monthly progress reports which detail the status of the job from start to finish.

BUILDING CONSTRUCTION

Our team has extensive experience with residential, commercial, schools, office buildings, and worship spaces to fulfil any construction needs, be it an addition, restoration, finishing works, or new construction. We bring the "down to earth" approach that clients appreciate, coupled with the wealth of experience and know-how that comes from being an industry leader.

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

1 Residential construction

Our construction crew has extensive experience with residential developments from standard family homes to more extravagant holiday homes and estates.

Having completed projects from preconstruction to commissioning means we have the skills and experience required to undertake all your residential construction needs.

2 Commercial construction

Our construction crew has extensive experience with commercial developments from residential apartments, high rise flats, malls, retirement villages, hotels, warehousing, resorts among many. This combined with our ability to provide complete site work for institutional and commercial developments means not only are we competitively priced, but we also provide the peace of mind that comes with dealing with one contractor.

3 Healthcare

Ndaxx Construction Ltd. has healthcare experience in everything from small outpatient facilities to major medical facilities. These projects have included renovations, additions, and new construction.

The issues that arise in healthcare construction are distinct from any other type of work because of the sensitive nature of the building's environment. Infection control, risk management, and the challenges that come with working in an active facility are all major issues that must be dealt with.

4 Industrial

Working in an industrial setting presents a unique set of challenges and issues. Time and schedule are often driving factors in the project. Ndaxx Construction Ltd. can self-perform a large percentage of the work that industrial construction entails, allowing us to drive the schedule and deliver our projects on time. Industrial work almost always takes place in an existing facility that must maintain operations through the duration of the project. We are aware of the potential challenges facing a project of this manner and can minimize their impact, saving time and lowering costs.

5 Datacentre and telecommunications building

Ndaxx Construction Ltd can handle large and small projects in datacentre and telecommunications buildings. This type of work is extremely challenging because of the sensitive nature of the equipment that is stored inside. The design must consider the environment that is required once the equipment is in place, with proper air circulation to maintain temperature and proper measures to negate any external issues.

During actual construction, elements such as dust, vibration, and moisture that are commonplace on a job site must be controlled to maintain the integrity of the equipment.

6 Design and build

Ndaxx Construction Ltd. offers design and build construction delivery system where we undertake the design and construction aspects of the construction project.

This system minimises the project risk for an owner and reduces the delivery schedule by overlapping the design phase and construction phase of a project.

6.1 Benefits of Design-Build

Other benefits of design-build include:

- **Enhanced communication** between Ndaxx Construction Ltd. and the client
- **Increased accountability** by Ndaxx Construction Ltd.
- **Single source** project delivery
- The **economies of scale** that come with cost-effective construction

CIVIL INFRASTRUCTURE

We can complete civil infrastructure projects of any size. We have in-depth contract administration, health, and safety planning, environmental planning, construction planning and construction methodology that are aligned with industry best practice. We can also provide complex traffic management and are experienced in dealing with projects that have a high level of public accountability. The main job categories under the civil infrastructure are:

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

1 Heavy Civil Construction

Projects in this market include infrastructure projects which comprise structural and highway construction, concrete paving, airport runways, and taxiways paving, and infrastructure maintenance and rehabilitation.

2 Municipal Construction

Under the Municipal market, we can deal with projects ranging from, new urban roads construction and roads reconstruction, municipal street-scaping, architectural sidewalks, kerbs construction, maintenance of existing roads and drainage, installation of street lighting, road signs and associated concrete works.

3 Bridges and other drainage structures

The team at Ndaxx Construction Ltd. prides itself on being able to carry out all the requirements of bridging and structural engineering in-house. This includes in-house precast concrete, steel fabrication, piling, and construction.

We design and build our steel formwork, false-work systems, and steelwork production required for bridge building and associated heavy civil engineering type works.

Ndaxx Construction Ltd. has all the necessary plant, labour, and experience required to build a variety of structures including steel I beam bridges, precast concrete bridges, box culverts, pipe culverts, and piling.

We are also highly competent in the construction and maintenance of residential retaining walls, marine-based structural developments including marinas, wharfs, jetties and the like.

4 Soil erosion protection works

We can install soil erosion protection measures which include, but are not limited to:

- | | |
|--|-----------------------------------|
| ✓ Gabions and mattresses | ✓ Stone pitching and rip rap |
| ✓ Scour checks | ✓ Terracing/construction of berms |
| ✓ Geotextile fabrics and grids | |
| ✓ Hydro seeding | |
| ✓ Top soiling and grassing incorporating short term erosion protection matting at steep slopes, etc. | |

5 Asset management

Our team can provide a wide range of asset management services for clients. We have both the technical expertise and experience to implement a proactive management strategy to ensure that the asset can be utilised to its full potential.

We specialise in the management of infrastructure-type assets such as the repair of bridges, scour protection and flood maintenance.

SITE WORKS

The site works starts with an understanding of your lifestyle, property layout and budget. Our site works experts assess those needs, and base your projects design around them.

We offer comprehensive services which may include:

- ✓ Tree Felling, Pruning & Shaping
- ✓ Groundworks, Earthworks & Grading
- ✓ Top soiling
- ✓ Planting including Plant Procurement
- ✓ Irrigation & Land Drainage
- ✓ Paving & Driveways
- ✓ Footpaths
- ✓ Retaining & Freestanding Walls
- ✓ Fencing
- ✓ Timber Structures
- ✓ Sports & Recreational Facilities
- ✓ Water Features
- ✓ Demolitions
- ✓ Trenching

WATER & WASTEWATER

We have extensive expertise in:

- ✓ Dam construction and repairs,
- ✓ Reticulation projects,
- ✓ Raising mains,
- ✓ Pump stations,
- ✓ Upgrades of existing plants,
- ✓ Construction/upgrade of municipal sewer lines
- ✓ Wastewater treatment works.

We have the technical expertise and project management experience to coordinate the multi-disciplinary demands that come with managing projects of this nature.

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

LOGISTICS AND TRANSPORTATION

We have a range of construction machinery, tippers for hire and transportation services. We also supply quality construction materials to you at affordable rates.

RESOURCES

We are equipped with all the modern tools needed for efficiently accomplishing even the most complicated jobs. What the developing world needs most is modern technology tempered with the sensitivity to its peculiar needs.

These include: -

1.) **BUSH-CLEARING AND LANDSCAPING**

- Bull Dozers
- Excavators
- Graders
- Wheel Loaders
- Tipper Trucks
- Post hole diggers

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

2.) EARTHWORKS

- Bulldozers
- Graders
- Wheel Loaders
- Excavators
- Dump Trucks
- Vibratory Rollers
- Water Bowsers/Tankers

3.) BITUMEN WORKS

- Steel Drum Rollers
- Pneumatic Rollers
- Bitumen Distributors
- Chip Spreaders
- Tractor driven mechanical Brooms

4.) CONCRETE WORKS

- Concrete Mixers
- Poker vibrators
- Tipper Trucks
- Crawler Crane (50 Tonne)

5.) PRE-CAST CONCRETE WORKS

- Concrete Mixers
- Poker vibrators
- Tipper Trucks
- Crawler Crane (50 Tonne)
- Hydraulic Block Making machine

Other related equipment

- Low loader trailer
- Forklifts
- Generators and water pumps
- Small plant (plate compactors, etc.)

Please note that if we do not currently have any equipment that is required for a project we will hire it for the duration of that project at discounted prices and these savings are passed on to the client.

MATERIAL TESTING FACILITIES

We have a good association with existing material testing laboratories and routinely utilise them for pavement and materials testing. These include;

- ✓ University of Nairobi Engineering Department
- ✓ Jomo Kenyatta University of Agriculture and Technology (JKUAT) School of Engineering.
- ✓ Ministry of Roads, Research and Testing Laboratory
- ✓ Vejtech & Witts Engineering Co. Site Laboratory in Langata.

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

OFFICE SUPPORT TEAM

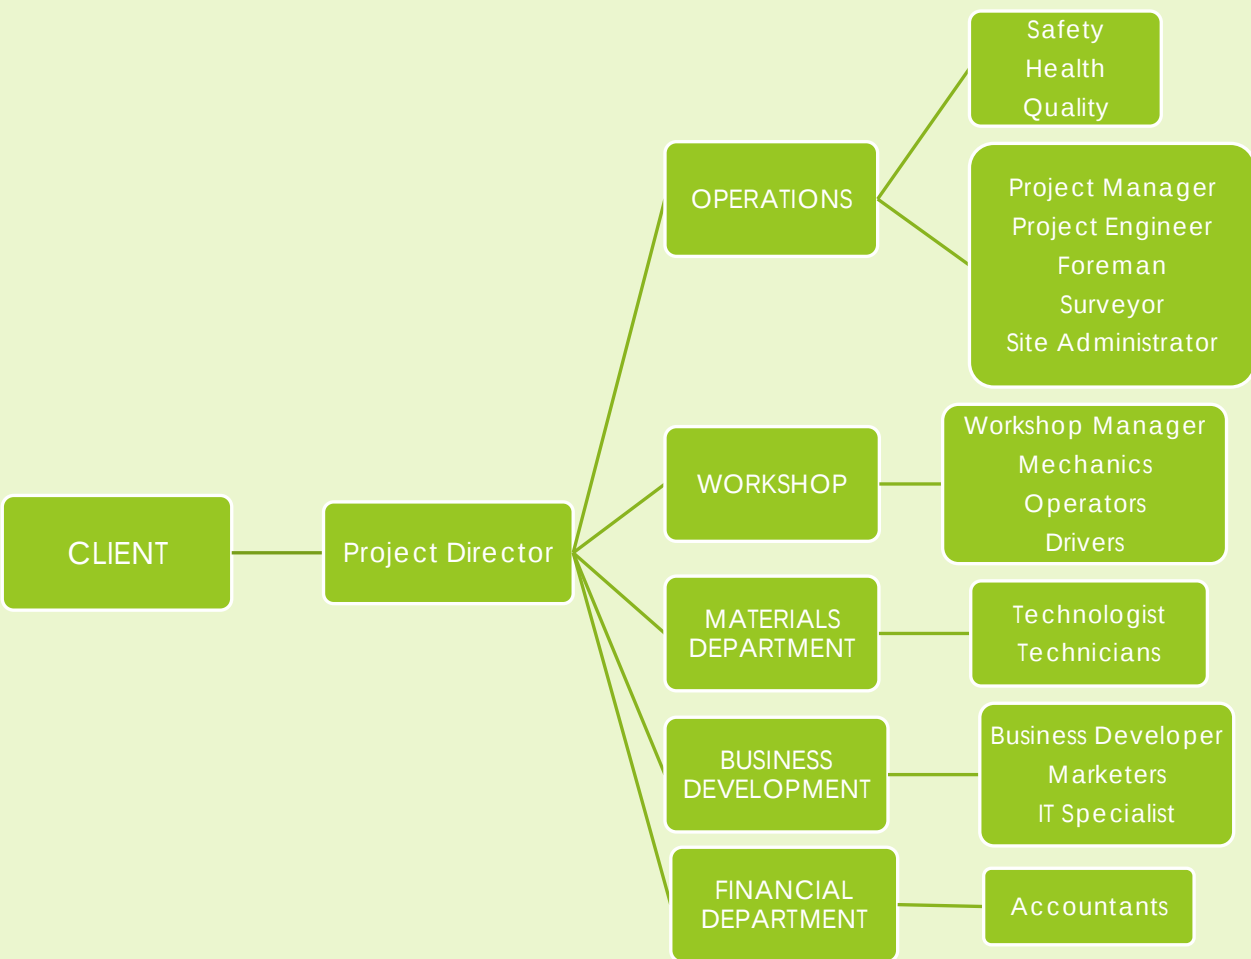

In addition to the team of Engineers and Technical support team, the firm also has the following support staff:

- 1 Business developer
- 1 Accountants
- 1 Administrator

LITIGATION HISTORY

Since inception, the firm has not been involved in any litigation with the Government of Kenya or any other client.

ORGANIZATION CHART

QUALITY ASSURANCE

We aim to provide first-class services and products which are highly valued by our customers through a commitment to local quality and technical excellence, and by working in effective partnership with others. In doing so, we fully recognize our other responsibilities; to meet the expectation of our shareholders, to provide fulfilling and rewarding careers for our employees and to adopt a high standard of corporate citizenship in our dealings with all those who enable us to carry out our work.

NDAXX CONSTRUCTION LTD.

COMPANY PROFILE

Consistent with objectives towards meeting the quality expectation of customers, due importance is given to the following activities:

- Quality Management System
- Management Responsibility
- Resource Management & Allocation
- Product Realization & Process Management
- Measurement, Monitoring, Analysis & Improvement

These five quality concepts and their basic elements are visually illustrated by the concept of “continuous improvement” which is also known as the Shewhart cycle of Plan-Do-Check-Act (PDCA).

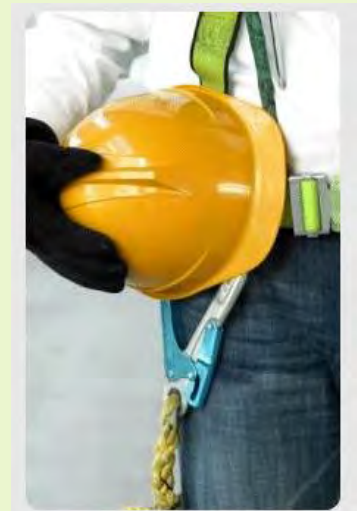

HEALTH AND SAFETY

The health, safety, and welfare of all staff, sub-contractors, clients, and visitors are significantly important to Ndaxx Construction Ltd., and we intend to strive for excellence in the effective health and safety management of all construction sites under our control.

We also aim to effectively mitigate all hazards arising from our facilities, activities and site-specific environments.

We are committed to safety above all else, and this commitment is central to everything we do. Our proactive approach creates value for our clients and safeguards our most important asset: our employees. Our entire team is dedicated to maintaining a safety-focused and environmentally sound business; our safety culture is promoted by each member of our team through planning, implementing and evaluating safety practices daily.

Our safety program is proactive and action-oriented; everyone from management to tradespeople is involved in making a zero-incident workplace a reality. We use daily pre-task planning sessions, on-going safety inspections, weekly safety meetings, safety seminars, special equipment training, safety manual reviews, and email updates to assist in attaining our goal of zero incidents.

ENVIRONMENTAL SUSTAINABILITY

At Ndaxx Construction Ltd., we understand that environmental sustainability is everyone's responsibility and as a prominent local company, we are prepared to lead the way in this regard. We also realise that a commitment to the environment is not just socially responsible, but also good business practice as we seek to increase our constantly growing reputation. For this reason, we ensure that our environmental policy is implemented throughout every facet of our business.

Simply put, our overall objective is to carry out our operations in a way which manages and minimises any adverse environmental impact and to prevent any pollution.

COMMUNITY INVOLVEMENT

Giving back to the communities in which we work has been a long-standing tradition with the company. We get involved by providing donations of our time, money, materials and labour. We organize group opportunities with different causes and charities and encourage employees to volunteer in our community.

ONGOING AND COMPLETED PROJECTS

Assignment Name	Project Location	Client	Duration	Approx. Value of the contract (Kshs)
Design and construction of a shipping container shopping mall Box Park	Embu, Kenya	Mr. & Mrs. John Kariuki	05/23 - Ongoing	20 million
Design and construction of a 5 storey residential flat with 2 bedroom, 1 bedroom units and bedsitter units	Juja, Kenya	Ms. Jane Chege	11/22 - Ongoing	55 million
Installation of fire doors for an electrical substation.	Loiyangalani – Lake Turkana	Assa Abloy (EA) Ltd – Lake Turkana Wind Power	11/21-05/22	300,000
Installation of fire doors and accessories for offices	Kenya Ports Authority – Mombasa, Kenya	Assa Abloy (EA) Ltd – LDC/ Gulf Stream Investments Ltd.	01/22-02/22	500,000
Installation of fire doors and accessories for a 10 storey hotel apartment building	Kilimani, Nairobi - Kenya	Assa Abloy (EA) Ltd	09/20 – 04/22	2.2 million
Design and construction of a 2 storey residential maisonette	Kajiado - Kenya	Mr. Boniface Mokuu Mose	10/20 - Ongoing	13.5 million
Design and construction of a 6 storey residential flat with 2 bedroom, 1 bedroom units and bedsitter units	Tassia, Nairobi, Kenya	Mr. Oscar Mutua	06/20-11/21	42 million
Construction of steel structure warehouse to house Onn The Way Supermarket	Gigiri, Nairobi-Kenya	Scorpion Properties Ltd. - Subsidiary of Chartur Group Ltd.	11/19 – 04/20	6 million
Construction of 2 storey residential contemporary style maisonette	Machakos - Kenya	Ms. Ruth Mueni	07/2019 - 02/2022	9.8 million
Construction of 2 storey residential house.	Nanyuki - Kenya	Mr. James Waicungu	08/2018 - 05/2019	8 Million

SUMMARY

An experienced civil engineer with a passion for sustainable design principles, overseeing infrastructure projects within budget and to high quality standards, leading cross-functional teams, and collaborating with stakeholders to meet objectives. Strong problem-solving abilities, communication skills, and commitment to professional development.

KEY COMPETENCIES

Traffic Analysis & Systems Design
Project Management
Engineering Design & Construction
Wastewater and Drainage

Team Leadership
Problem Solving
Strategic Planning
Negotiations

Asset Management
Research
Time Management
Computer Aided Design (CAD)

PROFESSIONAL EXPERIENCE

Kenya Urban Roads Authority (KURA)

Feb 2022 - Present

Roadworks Inspector - KURA Dualling of Nairobi Eastern Bypass Project

Managing quality control for a Kenyan governmental agency in charge of urban road network development, rehabilitation, and maintenance, specifically for a large dual carriageway project.

Accomplishments:

- Implementing a rigorous quality control process, conducting comprehensive inspections and initiating corrective measures, with a goal towards an improvement in overall project quality.
- Effectively identified and resolved several unforeseen challenges during roadworks, such as ground stability issues and utility conflicts, minimizing project disruptions and delays.
- Ensuring compliance with road construction standards and specifications, resulting in reduction in non-compliant issues.
- Liaison with various stakeholders, including government agencies, contractors, and local authorities, fostering strong working relationships and ensuring project alignment.

Ndaxx Construction Ltd

Sep 2019- Present

Technical Director

Lead strategic planning and execution for diverse construction projects, with a strong emphasis on optimizing asset management to enhance operational efficiency. Fostered a culture of continuous learning and development, resulting in elevated team expertise and heightened client satisfaction.

Accomplishments:

- Successfully managed 22 projects (some concurrent), including building constructions, roadworks, interior design, and finishing works, ensuring on-time and within-budget project delivery.
- Coordinate with and sometimes lead cross-functional teams including architects, engineers, subcontractors, and suppliers to ensure seamless project execution and adherence to quality standards.
- Identified business opportunities and developed strategies expanding the company's portfolio in the buildings, roadworks, interior design, and finishing works sectors.
- Collaborated with clients and stakeholders to understand their needs and develop tailored solutions, resulting in increased project acquisitions, revenue growth and repeat business and referrals
- Mentored and developed team members, promoting continuous learning and professional growth.

Sinohydro Corporation Ltd

May 2021 - Feb 2022

Assistant Design Engineer - KeNHA Construction of MAUMAU Road Project: Lot 3 (Nyeri Section)

Actively participated in the design and development of a major EPC turnkey road construction project. Collaborated closely with senior engineers in drafting and refining project designs, ensuring compliance with technical specifications and client requirements.

Accomplishments:

- Assisted senior design engineer in developing road design plans, including alignments, cross-sections, and profiles using software tools such as AutoCAD and Civil 3D to create detailed design drawings.
- Mastered advanced design software, enhancing the accuracy and efficiency of design models.
- Conducted technical analysis and evaluations of road design components, such as pavement thickness, drainage systems, and signage.
- Identified and addressed potential storm water drainage issues in the design phase, averting costly maintenance and repair works on the road after commissioning.

China Wu Yi Co. Ltd**Dec 2020 - Apr 2021****Assistant Site Engineer (Internship)**

Concurrently worked on two road construction projects, 1. **KeNHA (A109L) Magongo Road 4Km Dual Carriageway Road project in an urban area**, and 2. **KeRRA (D549) Mariakani - Bamba Road repair and maintenance work in a rural area** providing vital support in site management and operations.

Accomplishments:

- Assisted in monitoring project progress, ensuring adherence to timelines and quality standards.
- Gained hands-on experience in coordinating with different teams, contributing to effective problem solving on site.
- Developed proficiency in the use of construction management software and tools, such as Primavera P6 & MS Project, enhancing project documentation and reporting.

Geoissa Engineers Ltd**Sep 2020 - Nov 2020****Graduate Materials Engineer (Internship)**

Oversaw comprehensive materials testing in a private civil engineering lab, focusing on soils, concrete, and other key construction materials.

Accomplishments:

- Ensured all testing procedures met rigorous quality and safety standards, enhancing the lab's reputation for excellence in material analysis and support for engineering projects.
- Assisted in analysing test results, interpreting data, and preparing comprehensive reports.
- Assisted in the development of a web-based database and filing systems to manage laboratory information effectively.
- Fostered effective team communication and collaboration, leading to a marked increase in team performance marked by increased daily work output.

Assa Abloy (EA) Ltd**Aug 2019 - Aug 2020****Projects Coordinator****Jan 2020 - Aug 2020****Projects Intern****Aug 2019 - Dec 2019**

Managed the supervision and coordination of project sites for a private multinational company, focusing on specialized doors and security systems. Ensured high-quality installation and adherence to project specifications across various sites, while focusing on efficient use of materials and resources.

Accomplishments:

- Successfully coordinated and managed multiple projects worth USD 1.2 million involving door opening solutions and security systems from initiation to completion.
- Implemented cutting-edge techniques in installation and project coordination, significantly reducing project timelines and raising the quality of outcomes.
- Assisted in the preparation of tender documents and specifications to successfully bid for and win 13 projects.

H Young & Co. (EA) Ltd**Aug 2018 - Dec 2018****Civil Engineering Attachee (Industrial Attachment)**

Worked on a road construction project - the **KURA (M12) Langata-Kibera-Ngong Road 4Km Dual Carriageway Link Road project in an urban area**. Assisted in coordinating project activities, ensuring timely execution and adherence to project plans and international standards.

Accomplishments:

- Assisted in preparing progress reports and updating of project schedules, highlighting key milestones, challenges, and achievements.
- Entrusted with assistant site engineer responsibilities when they went on leave.
- Assisted in conducting quality inspections of road construction materials, including soil compaction and asphalt testing.
- Supported the implementation of safety improvement initiatives and provided suggestions for enhancing on-site safety.

EDUCATION**Jomo Kenyatta University of Agriculture & Technology (JKUAT)****2014 - 2019****B.Sc. Civil Engineering**

- Graduated with **Second Class Honors (Upper Division)**

Graffins College**2014****Certificate in Computer Packages**

- Completed packages include; i. Autodesk AutoCAD, ii. Graphisoft ArchiCAD

Nairobi School**2010 - 2013****Kenya Certificate of Secondary Education**

- Graduated with a mean grade of **A-** (80 points out of a possible 84)

Lions Primary School Embu**2002 - 2009****Kenya Certificate of Primary Education**

- Graduated with a mean grade of **A** (410 points out of a possible 500)

COMPUTER SKILLS

MS Office Suite (Word, Excel, Powerpoint, Outlook, Visio)
Autodesk AEC (AutoCAD, Civil 3D, Revit, Infraworks)
Primavera P6 & MS Office
Graphisoft ArchiCAD
ArcGIS
Masterseries, Prokon, ETABS.

KIPTALA - CURRICULUM VITAE

PERSONAL DETAILS:

Name: Jonathan Kiptala Kiplagat, Bsc Civil Engineering

|Sex: Male| Date of Birth: 27TH NOV 1987| Place of Birth: Kabartonjo, Baringo County| Marital Status: Single| Nationality: Kenyan| Permanent Address: P. O Box 1417-00200 Nairobi| Telephone Contacts: +254-725-413055| Email address: jt.kiptala@gmail.com| jkiptala@gmail.com|

CAREER OBJECTIVE:

To maximize the application of the acquired skills, knowledge, experience and competencies gained in academic and work environments to enhance positive change in the operations of any given organization as well as to advance my career. To creatively apply, develop my skills and continuously strive towards realization of personal and corporate vision.

PERSONAL PROFILE

- Fast learner and can work under flexible timelines
- Ability to work in a multicultural and multidisciplinary environment
- Ability to work with minimum supervision and nurture team spirit
- Honest, ethical and sensitive to set standards & deadlines

PROFESSIONAL EXPERIENCE:

1. TODDY CIVIL ENGINEERING COMPANY LIMITED

Post: Site Agent

Period: October 2014 to Date

HIGHLIGHTS

- Rehabilitation/Extension of Mombasa Water Supply Works - Lot 2/1
- Contract No: CWSB/WASSIP-AF/W/12/2012

DUTIES

- Overall supervision of entire works
- Make Progress reports/Payment Certificates and other reports
- Advise the company/Management on project technical/contractual issues
- Consult with the Client's representative on matters project
- Maintain safe, secure, and healthy work environment by following and enforcing standards and procedures; complying with legal regulations
- Represent the company in any other job required or directed

2. NDAXX CONSTRUCTION LIMITED

Post: Site Agent (Special Works)

Period: October 2021 to Date

HIGHLIGHTS

- Design and construction of a shipping container mall Box Park in Embu, Kenya
- Design and construction of a 6 storey residential flat units in Nairobi
- Grading and Gravelling of Fire/Crash Access Roads & Repair of Aprons and Taxiways at Wilson Airport

DUTIES

- Overall supervision of entire works
- Make Progress reports/Payment Certificates and other reports
